

Feb. 23, 2024

Dear Patient(s),

I wish to inform you that **effective June 1, 2024, I will be relocating my practice** to South Mississauga.

I have been fortunate to work alongside my two excellent physician colleagues for over eight years. However, both my partners will be closing their family medicine practices in about 3 months. Since I cannot sustain this office as a solo practitioner, I will be joining another existing group practice **on June 1, 2024 at:**

Medical Associates of Port Credit
2nd Floor - 333 Lakeshore Rd W Mississauga ON L5H 1G9
Tel: 905-274-7044
Website: <https://www.portcreditmedical.ca/>

My new practice will be in a professional building with an elevator, free parking, and adjacent pharmacy.

I am hopeful to continue as your family doctor at my new office, but I understand this location may be too far for some of you. Should you not be able to join me at the Port Credit clinic, I am grateful to have been part of your health journey and to have had your trust over the years. I wish you good health in the future; you may request a transfer of records to a new family physician of your choice at any time.

If you are able remain in my practice at Port Credit, I will be honoured to continue as your family physician and I thank you for your confidence in my care. I have been blessed with a group of loyal and inspiring patients and it is an absolute privilege to work with you and serve your medical needs.

Please note that my current practice will continue until May 31, 2024, although I would appreciate your deferral of nonurgent visits in the last few weeks, to allow for a seamless transition to my new location on June 1, 2024. **Please ensure that any non-urgent bloodwork, imaging, or other testing is completed by mid- May 2024 or delayed until June 2024 unless otherwise directed, if possible and safe to do so.** If you have any appointments or tests in May 2024, please notify your laboratory, imaging facility, specialist physicians, therapists, and/or any other health care providers of the upcoming change in my address; this will prevent results and reports from being misdirected in the move. I encourage you to book follow-up appointments to review those results and ensure I've received them. We remain available at the current office for any questions or clarifications until the moving date.

Sincerely,

Ravinder K. Sohi
MD CCFP FCFP
